

Tomorrow River School District: Stakeholder-Driven Strategic Planning

SITUATION APPRAISAL SCAN

Definition: A systematic process which helps to break complex issues into manageable parts.

Steps:

- See the Issue
- Clarify The Issues
 - Understand the pieces of the issues.
 - Be specific.
- Assess the Priorities and Identify What to Work on First
 - How serious or important is this matter?
 - How urgent is the deadline?
 - What is the potential growth or trend toward a negative result?
- Name Next Steps
 - Through the process of Stakeholder Driven Strategic Planning, what are some next steps or ideas you would like to forward to the action teams for serious consideration and possible action.
 - Planning process to be guided by the Steering Committee and the Community Survey
 - Review and support of the final version of the Plan should reflect all of the data points established by the Steering Committee.
